

## HALOGEN-FREE DECLARATION

---

Digidelta Internacional Import Export, S.A., as manufacturer of BIOND™ films, hereby declares that the BIOND film range (including White Matte/Glossy, Clear Glossy, Clear Matte and Clear Matte Embossed constructions) is halogen-free.

The polymeric composition of BIOND films does not contain intentionally added halogenated compounds, including but not limited to:

- Chlorine (Cl)
- Fluorine (F)
- Bromine (Br)
- Iodine (I)

In particular, BIOND films are PVC-free and do not contain chlorinated polymers or other halogen-based plastic materials.

This declaration refers to the polymer film construction as supplied by Digidelta and is based on formulation control and supplier raw material specifications.

BIOND films are therefore suitable for applications requiring halogen-free materials.
