

Halogen-Free Declaration

Digidelta - International Export Company, S.A. hereby confirms that the PVC-free references supplied by our company are halogen-free, according to the definition commonly accepted in the graphics and materials industry.

Based on our current knowledge and on the information provided by our raw material suppliers, the products do not intentionally contain halogenated compounds, including but not limited to:

- Chlorine (Cl)
- Bromine (Br)
- Fluorine (F)
- Iodine (I)

Furthermore, no halogenated flame retardants are intentionally added during the manufacturing process of these products.

The above statement applies to the base polymer and formulation of the materials and reflects the composition of the products supplied by Digidelta at the time of manufacture.

This declaration is issued in good faith and is based on the information currently available from our raw material suppliers and internal product knowledge.
